

Powerful & Smart to Print!

Introducing ANSER SP-2000 Smart Printing System, Your Smart Printing Solution!

SP-2000 Smart Printing System

SP-2000 Smart Printing System Features

Printing PRO™ – PC Software

- 1、 PC interface for easy operation, message editing & downloading.
- 2、 Dynamic database access with realtime database printing capability.
- 3、 One-Button for software upgrading.

Smart PrintStation™

- 1、 Printing speed up to 500 feet/minute (150 DPI).
- 2、 Unique compress & decompress technology, enhancing the data transferring speed.

Tri-High Features

- 1、 High-Speed Printing:
Printing speed up to 500 feet/minute (150 DPI).
- 2、 High-Resolution Printing:
High print resolution up to 600 DPI (Dot-Per-Inch).
- 3、 High-Speed Data Transferring:
 - a、 Transferring speed through PC goes up to 1 Gbps, ensuring data transfer at the highest speed.
 - b、 Unique compress & decompress technology, increasing up to 10 times data transferring speed.
 - c、 Advanced ADT (ANSER DATA TUNNEL) design, transferring the dynamic data at the highest speed. Featuring Feedback Report function, easy for system integration.
